CONSULTANT in PAEDIATRIC GASTROENTEROLOGY, HEPATOLOGY AND NUTRITION

JOB DESCRIPTION

INTRODUCTION

This is a full-time post (10 PA's) locum post in Paediatric Gastroenterology in Alder Hey Children’s NHS Foundation Trust to cover a period of shortage due to retirement and sick leave. This job description describes the principal clinical duties of the appointee and the support that will be available.

1. THE TRUST

Alder Hey is a major teaching hospital of the University of Liverpool. It serves not only the local children of Liverpool, but is the tertiary referral centre for children from Merseyside, Cheshire, parts of Lancashire, Shropshire and North Wales for many sub-specialties of paediatrics. The Trust provides a range of community services including school nursing, home carers and a child development centre. A child and adolescent mental health service is also provided with an in-patient unit based at the Trust. The hospital has approximately 270 beds, including day beds for surgery and a medical day care unit. The paediatric services and expertise within the hospital are considerable and include paediatric ophthalmology, cardiology, cardio-thoracic surgery, neonatal surgery, neurology, neurosurgery, audiology, nephrology, respiratory, rheumatology, gastroenterology/Hepatology/nutrition, dermatology, endocrinology, metabolic medicine, haematology, oncology, palliative care, paediatric infectious diseases and immunology, allergy, clinical genetics, trauma, paediatric intensive care, paediatric radiology, paediatric pathology, general surgery and general pediatrics all on a single site. The radiology department provides an excellent supportive service, which includes both a CT and MRI scanning service. A purpose built Education Centre is situated on the hospital site and is available for all postgraduate educational activity.

There are 6 Clinical Business Units within the Trust:

- Medical Specialties which includes respiratory medicine, infectious diseases, allergy, immunology, metabolic disease, nephrology, rheumatology, gastroenterology/hepatology/nutrition, endocrinology, oncology, dermatology and dietetics.
- District Services which includes community child health, safeguarding, a social work department, community clinics, neurodisability, treatment foster care, child and adolescent mental health services, accident & emergency department, general pediatrics, diabetes, audiology, and chronic fatigue services.
- Surgery/Orthopedics/Theatres which includes theatres, day case unit, anesthetics, pain control, general surgery, urology, gynecology, neonatal unit, orthopedics and plastic surgery.
- Neuro/Head & Neck which includes ENT, cleft lip and palate, ophthalmology, maxillofacial surgery, dentistry, orthodontics, neurology, neurosurgery, craniofacial and long term ventilation.
- Clinical Support Services Division which includes therapies, biomedical engineering, central admissions, bed management, medical records, generic out-patients, pharmacy, pathology and radiology departments.
- Critical Care/Cardiac Unit which includes cardiology, cardiac services, paediatric intensive care unit, high dependency unit and a burns unit.

Supporting the Clinical Business Unit is Corporate Services which includes finance, Human Resources, communications, fundraising, hotel services, estates, risk management, clinical governance etc.
2. THE DEPARTMENT

Gastroenterology, Hepatology and Nutrition

Services for children with gastroenterological, liver and nutritional disorders are presently provided by Dr Krishnappa Venkatesh, Dr Marcus Auth and Dr Bala Krishnamurthy.

The department has CSAC approval for the National Grid trainees in Paediatric Gastroenterology/Nutrition jointly with Manchester and Leeds (hepatology). The department provides all services in alignment with BSPGHAN and ESPGHAN training schemes.

3. CLINICAL SERVICE

Approximately one thousand children are seen as new out-patients each year. Multidisciplinary specialist clinics serve children with inflammatory bowel disease (endocrine, surgical, transitional), feeding disabilities in children with neurodisability and cardiac disease, cystic fibrosis, coeliac disease, chronic liver disease, polyposis, gastroesophageal reflux disease, Behcet’s and Hirschsprung’s disease.

Approximately one thousand endoscopic procedures are performed per annum, by consultants, trainees.

All aspects of Paediatric Gastroenterology Hepatology and Nutrition are catered for except liver and small bowel transplantation (close links with Leeds and Birmingham paediatric transplantation units).

There is collaboration with adult gastroenterological colleagues within the region in regard to continuity of patient care. There are approximately 200 patients with inflammatory bowel disease and five transitional care clinics are arranged annually to transfer patients to The Royal Liverpool & Broadgreen University Hospital Trust and The University Hospital Aintree and Countess of Chester Hospital. Further transition clinics are provided for patients with chronic liver disease and polyposis syndromes with the Royal Liverpool and Broadgreen University Hospital (4 clinics annually).

A hospital based Clinical Nutrition Support Team assesses selected in-patients weekly and advises nutritional strategies. A regional Total Parenteral Nutrition community support service is coordinated through the department.

There are paediatric gastroenterology nurse specialists providing telephone clinic support in addition to running their independent clinics for certain patient groups, providing support for stoma/PEG care and home PN patients.

There is a weekly clinico-pathological conference and monthly radiology meeting.

A full range of specialist diagnostic services include paediatric imaging, endoscopy, paediatric histopathology, oesophageal impedance and pH monitoring, manometric studies, hydrogen and C13 breath tests and video capsule endoscopy.

Facilities and future plans

Construction of a new Children’s Health Park is well underway with the creation of a state of the art integrated tertiary hospital unit including Diagnostic and Treatment Centre with expected completion in 2015.
4. STAFFING

Consultants

Dr Krishnappa Venkatesh, Consultant Paediatric Gastroenterologist
Dr Marcus Auth, Consultant Paediatric Gastroenterologist
Dr Bala Krishnamurthy, Consultant Paediatric Gastroenterologist

Plus Current Vacant Post
Plus developing plans for a fifth consultant post

Trainees

1 National Grid Specialist Registrars in paediatric gastroenterology
2 SpR trainees in Paediatrics
1.75 Senior House officers (paediatrics and gastroenterology)
0.5 Ward based FT

Support Staff

2 Pathway Co-ordinators
2.5 Senior Dieticians
Ms Tracey Irvine and Mr Peter Grant, Gastroenterology/Hepatology Nurse Specialists, plus 1 vacancy
Mrs Sharon Irving, Parenteral Nutrition specialist nurse
Mrs Pat Coldicutt and Mrs Brenda Hill, Stoma Nurse Specialists
GI Physiology specialist support

Nursing Staff

The ward based nursing staff have expertise in nursing paediatric patients.

5. FACILITIES

In-patient:

Children with gastroenterological, hepatological and nutritional problems are admitted to a number of medical wards with nursing staff skilled in the management of such children. The nature of the nutritional service means that children with differing clinical problems are assessed throughout the hospital. A weekly nutrition ward round is conducted on the Paediatric Intensive Care and High Dependency Unit.

There is an observation ward facility attached to the Accident and Emergency Department and two dedicated day-case wards. There is a dedicated day case theatre complex for endoscopy day-cases. Comprehensive laboratory support services are on site. Endoscopy lists are supported by general anaesthesia.

Outpatient:

Out patient facilities in the hospital are based in a number of clinical areas. Patients with gastroenterological/hepatological/nutritional conditions from the region are at present seen in Alder Hey. Office space and pathway coordinator support will be available to this post.
6. DUTIES

There is an increasing demand for the assessment and management of children with gastroenterological, hepatological and nutritional disorders within the region. The post holder will integrate with the current service provision, giving the opportunity to specialise within the discipline dependant upon the appointee's field of expertise and interest.

The post holder will report through the Clinical Director for the Medical Specialties Clinical Business Unit to the Chief Executive with professional support from the Clinical Director and Service Group Lead.

7. PROVISIONAL JOB PLAN

The job plan is subject to re-negotiation and annual review with the Clinical Director and General Manager, any changes being made by agreement with the department. The referral system is currently organised in a 1 in 4 week rotation between the gastroenterology consultants with advanced plans for a 1 in 5 week rotation.

A working week would be envisaged as:

<table>
<thead>
<tr>
<th>DAY</th>
<th>AM</th>
<th>PM</th>
</tr>
</thead>
<tbody>
<tr>
<td>MON</td>
<td>Ward Round 0.75 DCC</td>
<td>Endoscopy Session 1.25 DCC</td>
</tr>
<tr>
<td>TUE</td>
<td>CPD / Audit 1.0 SPA</td>
<td>Nutritional ward round 0.25 DCC</td>
</tr>
<tr>

</tr>
<tr>
<td>FRI</td>
<td>Trust teaching and CBU meetings 0.5 SPA Educational supervisor or research 0.5 SPA</td>
<td>Gastroenterology clinic alternate weeks 0.5 DCC Ward Round 0.5 DCC</td>
</tr>
</tbody>
</table>

There are a small number of additional joint clinics which are conducted with other specialties over the year. There is also opportunity to work with specialised clinics, such as feeding clinics.

It is anticipated that in the near future we will be operating a 1 in 4 on call rota and developing hot and cold week model of care.

This job has 8.0 DCC’s and 2.0 SPA job plan (1.5 core SPA and 0.5 additional non-core SPA).

The Trust has produced guidance to direct the use of Supporting Professional Activities (SPA’s). It has identified that all Consultants must undertake 1.0 core SPA’s to support mandatory training, audit, CPD, appraisal and job planning; another 0.5 core SPA for Trust teaching and CBU meetings. A further 1 non-core SPA may be agreed for the following areas of work e.g. research, major service
development activities, regional and national projects. In this post there is an additional 0.5 non-core SPA for either educational supervisor role or research.

Further information can be provided.

8. RESEARCH

There is a Research and Development Directorate with remit to advise and promote research projects. There are laboratory facilities within the Department of Child Health and close liaison with other departments within the University of Liverpool. Gastroenterological, Hepatological and Nutritional based research is active national and international and the post holder will be expected to participate.

9. TEACHING

Liverpool University has a self-directed learning curriculum for undergraduate students. There are in excess of 600 students placed with the Trust each year, with students offered special study modules and placements in years 2, 3, 4 and 5. Staff involved in teaching medical students acquires Honorary Lecturer status. There are structured postgraduate teaching programmes including Paediatric Membership courses.

10. AUDIT AND CLINICAL GOVERNANCE

The appointee will participate in Medical and Clinical audit and the development of protocols and care pathways. Consultants are expected to be aware of the principles of clinical governance and to contribute to the aims of the Trust in achieving continuing improvements in all aspects of delivery of service.

11. CONTINUING PROFESSIONAL DEVELOPMENT

Consultants are expected to maintain their personal portfolios in accordance with the requirements of The Royal College of Paediatrics and Community Child Health, including the acquisition of the appropriate CPD points. The Trust has introduced an appraisal system for all consultants, which include a review of Continuing Professional Development and demonstration of compliance with the Trust’s Values and Behaviours Framework.

12. OTHER INFORMATION

There is a purpose built Education and Conference Centre is on-site. Staff provide support for the organisation of local national and international meetings. There is a 170-seat Lecture theatre and 4 seminar rooms with computer based projection and video-conferencing facilities.

There is 24-hour access to staffed library facilities, which take 140 current periodicals, both medical and nursing. Literature search and inter-library loan services are available as well as access to Medline, Cochrane and CINAHL databases.

An integrated hospital information system provides desktop access to information sources and the internet.

A programme of monthly Mersey Gastroenterological Group Meetings is held in The Liverpool Institution, with 3 invited speakers providing a focus for lively debate.
13. PROFILE OF LIVERPOOL

Liverpool is an old established port city which has experienced major revitalisation in recent years. Liverpool Maritime Mercantile City was inscribed by UNESCO in July 2004 as "The supreme example of a commercial port at the time of Britain's greatest global influence the city is a very welcoming and friendly, cosmopolitan and vibrant centre for industry and commerce and has been awarded European City of Culture status in 2008. Liverpool Maritime Mercantile City was inscribed by UNESCO in July 2004 as "The supreme example of a commercial port at the time of Britain's greatest global influence and the area around the waterfront has been awarded World Heritage status in 2004. The city of Liverpool is compact and is served by excellent links to both the motorway network and rail services. It is within easy reach of Liverpool and Manchester airports. Most of its suburbs are within 30 minutes travelling of the city centre with various activities at the Irish sea coast line and beaches within 20 minutes travel from the city centre.

The city has historically been a centre for the arts and sport. Liverpool's theatres, concert halls, museums and art collections are nationally acclaimed. Art galleries, include the Walker and Tate. The Philharmonic Hall is home to the Royal Liverpool Philharmonic Orchestra. The city is also alive with a huge variety of independent theatre groups, musicians and artists and is of course famous for "The Beatles". People from Liverpool and Merseyside are famous for their sense of humour, which is reflected in local and nationally televised performances.

As well as its two premiereship football teams, Liverpool is home to first class county cricket and top-level rugby union. The Grand National has made Aintree racecourse world renowned. The city also has unrivalled facilities for participative sport at all levels.

Liverpool is rightly famous for its two cathedrals, multicultural diversity and is also home to two major universities with a rich and varied academic community. The city can offer a range of excellent schools in both the independent and state sectors.

The city's recent renaissance, centred on the re-development of the docks and inner city, has also made Liverpool a centre for tourism with millions of visitors each year coming to enjoy the city and the surrounding area. Liverpool is within easy reach of the national parks of North Wales, the Peak District and the Lake District, as well as the Lancashire and Welsh coasts and historic cities such as Chester and Lancaster.

14. TERMS AND CONDITIONS OF SERVICE

The Terms and Conditions applying to the post are those relating to Consultants (England) 2003, i.e. the new Consultant Contract and shall be subject to any amendments negotiated from time to time by the appropriate bodies and approved by the Secretary of State.

The post will be offered on a full-time or part-time basis.

The successful candidate will normally be required to either:

a) Live within a ten mile radius of the base hospital or
b) Within 30 minutes travelling time of the base hospital.

If the appointee is required to move house to meet the residential clause of the contract, removal expenses will be payable in accordance with the terms and conditions of service of the Trust.

Terms and Conditions of Service state that the "removal expenses shall be reimbursed and grants paid only when the employing Authority is satisfied that the removal of the practitioner's home is required and that the arrangements proposed are reasonable". Therefore successful candidates are advised not to enter into contractual arrangement until such time as the formal approval of the Trust.
is confirmed in writing.

The post holder must be a medical practitioner fully registered with the General Medical Council and also hold Specialist Registration. The appointment is subject to clearance by the Criminal Records Bureau and medical screening, including verification of hepatitis B status.

ALDER HEY CHILDRENS NHS FOUNDATION TRUST

LOCUM CONSULTANT APPOINTMENT FOR GASTROENTEROLOGY SERVICE

Alder Hey Children’s NHS Foundation Trust is one of the largest and busiest children’s hospitals in Europe. The Trust has a world class reputation for providing care for sick children and a proud history of medical achievement and clinical innovation.

We are seeking applications for a Locum Consultant whilst awaiting recruitment to a full time substantive Consultant in Paediatric Gastroenterology. The appointee will provide an out-patient and an in-patient consulting gastroenterology and nutrition service to the Trust. You will join the team of Paediatric Gastroenterologists and supporting specialist nurses and allied health professionals covering the regional tertiary service.

If you are interested and have the appropriate qualifications and are already on the General Medical Council’s Specialist Register, hold your CCST or are within six months of the appropriate CCST award at time of interview, we would be delighted to hear from you.

For an informal discussion please contact Dr Mark Dalzell or Dr Marcus Auth on 0151 252 5153 or 0151 252 5541 respectively or Dr Mark Caswell, Clinical Director for Medical Specialities on 0151 228 4811 ext. 3680.

If you are interested in applying to this post please click the ‘apply now’ button below and submit your application form.

In cases where a vacancy receives a high volume of applicants, we may bring the closing date forward. You are therefore advised to submit your completed application form as early as possible.

If you have not been offered an interview within 6 weeks please accept that on this occasion you have not been successful. The Trust would like to thank you for your interest and look forward to receiving future applications from you.
